Cymulate

Cymulate Press Kit

01 About Cymulate

For companies that want to manage their security posture against the evolving threat landscape: Cymulate SaaS-based Extended Security Posture Management (XSPM) deploys within an hour, enabling security professionals to continuously challenge, validate and optimize their cyber-security posture end-to-end across the MITRE ATT&CK® framework. The platform provides out-of-the-box, expert, and threat intelligence-led risk assessments that are simple to deploy and use for all maturity levels, and constantly updated. It also provides an open framework to create and automate red and purple teaming by generating penetration scenarios and advanced attack campaigns tailored to their unique environments and security policies. Cymulate allows professionals to manage, know and control their dynamic environment.

02 Our Founders

Eyal Wachsman
Co-Founder & CEO, Cymulate, Ltd.

Eyal Wachsman is the Co-Founder and CEO of Cymulate., an on-demand breach & attack simulation SaaS platform that helps organizations verify their security controls & posture continuously. He brings 22 years of experience in the information security field to his role at Cymulate. Previously Eyal was VP of sales and business development for Avnet (acquired by Rockwell Automation, ROK, NYSE) Cyber & Information Security, which provides IT security consulting across the globe.

Avihai Ben-Yossef
Co-Founder & CTO, Cymulate, Ltd.

Recognized by Forbes Israel 30 under 30, Avihai Ben-Yossef is the co-founder and CTO of Cymulate, Ltd. At age 26, Avihai and co-founder Eyal Wachsman established Cymulate in 2016 to transform security testing for companies of all sizes. Prior to this, Avihai served in an Intelligence Unit of the IDF in a leading technological role, followed by becoming a senior information security consultant at Avnet Cyber & Information Security, where he worked on several projects alongside the Israeli Ministry of Defense.

Eyal Gruner
Co-Founder and Entrepreneur

Eyal Gruner is the co-founder and CEO of Cynet and former co-founder and CEO of Versafe, which was acquired by F5 Networks in 2013. Gruner began his career at age 15, when he hacked into his bank's ATM, then approached the bank management to demonstrate the weaknesses of their system.
